

Claim 80: Support for an overall thickness for the multilayer film of from about 1 to about 3.5 mils is found on page 19, line 23.

Claim 81: Support for multilayer film having a haze of less than about 6% is found on page 17, line 25.

Claim 82: Support for simultaneous biaxial orientation is found on page 19, lines 1-6.

Claim 83: Is a claim similar to claim 56 but including the cross direction ratio of new claim 89, the overall thickness of claim 80, and the machine direction stretch ratio of claim 65.

Upon entry of the above amendments, the claims under consideration in this application are claims 56-69, and 76-83. Applicants submit that all of these claims are allowable and an early action to the effect if solicited. Applicants believe that no additional fee is required for the newly presented claims. If any additional fees are required, Applicants request the Commissioner to charge those fees to Deposit Account #18-0988, **Docket No. AVERP2720US**.

Respectfully submitted,

RENNER, OTTO, BOISSELLE & SKLAR, LLP
